Be inspired and create your own unique hand-lettering as you learn about different letter-forms and practise making your own. Looking at the stories behind and main features of different styles – from serifs and spacing to downstrokes and baselines – this book will guide you through the process of designing different letters.

Play with shading and perspective, experiment with texture, create your own alphabets and develop your own style. The inspirational and helpful exercises will give you the creative confidence to start and help you explore this beautiful art form.

With creative prompts of what to letter, along with tips and insights from top designers and illustrators, *Hand-Lettering for Everyone: A Creative Workbook* is an engaging guide for beginners and experts alike.
