## Hooray for Hexagons A Colouring Book All About Shapes

Steve Richards (Illustrated By Steve Richards)

### Keynote

Make maths full of excitement with splashes of bright colour, amazing geometric colouring pages and super-simple explanations, *Hooray for Hexagons* turns maths into an exciting theme that couldn't be more perfect for colouring in.

### Description

Make maths full of excitement with splashes of bright colour, amazing geometric colouring pages and super-simple explanations, *Hooray for Hexagons* turns maths into an exciting theme that couldn't be more perfect for colouring in.

Children will be engrossed from page to page, and can tackle tessellations, colour a cardioid and get funky with fractals.

This book features artwork from Steve Richards, the same artist from *The Golden Ratio*, who has a real talent in showcasing the beauty of geometric drawing.

### Sales Points

- With bright and beautiful 4-colour insides, amazing geometric colouring pages and super-simple explanations, *Hooray for Hexagons* turns maths into an exciting, accessible theme that couldn't be more perfect for colouring in
- Children will be acquire a passion for maths as they tackle tessellations, colour a cardioid and get funky with fractals
- Featuring artwork for Steve Richards, the artist behind *The Golden Ratio*, who has a real talent in showcasing the beauty of geometric drawing

### Author Biography

Steve Richards is a self-taught artist based in Kent, England. He takes his inspiration from ancient symbolism and sacred geometry. His art is handrawn, usually black and white and has grown from a fascination with meditation, crop circles and our Sun.
