How to Think Like da Vinci

Daniel Smith

Description

Famed for creating some of the most iconic images in European art – including *Mona Lisa* and *The Last Supper* – Leonardo da Vinci has influenced generations of artists and thinkers, and continues to do so after more than 500 years. While we cannot hope to emulate his achievements, da Vinci showed an attitude towards life from which we can all learn.

A true polymath, he was also a sculptor, architect, musician, mathematician, engineer and an anatomist and, with an unquenchable thirst for knowledge, da Vinci was never satisfied with what he had learned, frequently turning his mind to new, unexplored subjects. He saw links between art and science, and constantly pursued perfection and accuracy in his work, so that he developed many techniques we continue to use to this day. Combining these strengths with a unique imagination, da Vinci came up with designs for inventions centuries ahead of their time.

In *How to Think Like da Vinci*, you too can learn to think like *the* Renaissance man, seize your opportunities, harness your talents, innovate and experiment and imagine the impossible. Read about this great man's life and achievements and develop your understanding of one of the world's most eclectic and extraordinary minds.

Sales Points

- An engaging insight into what made the mind of history's most creative visionary tick
- Discover the Renaissance approach to pursuing knowledge, thinking big, striving for perfection and channelling your imagination
- Perfect for those who want to better understand the polymath da Vinci's art and ideas
- From the author and publisher of the bestselling *How to Think Like* series. *How to Think Like Sherlock* has sold over 30,000 copies
