

# Trofin

Like the words of the song, it was 'on the road to Mandalay where the flying fishes play' that inspired this frolicsome pair. For those who love to swim against the current style, we recommend the streamlined sole (unbattered) for your heel and toe; a vertebrate for those with a lot of backbone when it comes to fashion. As you reel in the compliments you'll realise you're quite a catch in anyone's brook.
