

## Search the snake pit

The pit is full of snakes of all different sizes, colours and patterns, but only one is a magic snake.

Find it by reading the description below.

The answer is at the back of the book.

### THE MAGIC SNAKE HAS ...

... stripes in three different colours  
and three eyes, one of which is closed.

Extra challenge: there are **three** pairs of uncoloured snakes. Can you colour each pair in the same colours?
