

Can you circle the odd one out in each of the following sets? In the example, 'doughnut' is the odd one out because all of the rest are drinks, while a doughnut is a type of food.

EXAMPLE:

doughnut

milk

water

juice

1. mouse

rat

gerbil

lion

2. cluck

quack

bark

cheep

3. bicycle

motorbike

van

tractor

4. sun

lightbulb

hole

flame
