Bad History How We Got the Past Wrong

Emma Marriott

Keynote

Sorting the facts from the historical fiction, *Bad History* exposes the falsehoods that have wrongly influenced our understanding of world history.

Description

Sorting the facts from the historical fiction, *Bad History* exposes the falsehoods that have wrongly influenced our understanding of world history.

Much of what we know about historical events is based on generally accepted 'facts': St Patrick was Irish; Roman gladiators would fight to the death; the Wild West was full of danger...

However, history is, in fact, full of myths and misunderstandings that have been repeated so much over the years that we don't give them a second thought.

Each entry in this informative book will discuss the case for and against these commonly accepted truths, and corrects what you thought you knew about history.

Bad History provides a rigorously researched and entertaining read, perfect for any history enthusiast who wants to get their facts straight.

Sales Points

- A fascinating read that debunks the popular myths that have clouded our understanding of historical events
- Covers a broad spectrum of world history, from the Roman Empire right up to the twentieth century
- Entries include: Was Captain Scott iconic or incompetent? Did Benito Mussolini make the trains run on time? Was the Suffragette movement responsible for securing votes for women in Britain?
- Over 10,000 sold of the hardback edition
