In this accessible guide to how we think, psychologist Nicky Hayes explores how our minds process and filter information, and how that influences everything we do.

The science of how we think is key to understanding why we are who we are, and why we do what we do. What goes on inside our heads when we’re in different environments – thinking, storing or accessing a memory, pinging attention, processing language, being creative, problem-solving and learning – dictates how we interact with each other, what motivates and discourages us and the decisions we make every day.

Exploring how we form beliefs, ways of remembering, and conscious and unconscious thinking, What Are You Thinking? is an engaging look at the clever ways our minds deal with new information, revealing a fascinating web of processes that affect everything we feel and do.

**BEDTIME, LITTLE MOUSE**  
**written by Magali Mialaret**  
**illustrated by Carmen Saldaña**

Bedtime, Little Mouse will help lull little children to sleep with its Mindful Bedtime Method and lyrical picture book story.

Created by Magali Mialaret, PhD, and using her background in applied neuroscience, stress management and yoga coaching, the three-step Mindful Bedtime Method is designed to develop good practice around bedtime routines and encourage mindful reflection on emotions encountered during the day.

One: get your little one ready for bed. Two: read the relaxing story. Three: follow the mindfulness practices.

From helping your child notice their breathing and the softness of their surroundings, to expressing gratitude and reflecting on the joys of the day, the mindful practices will relax and ease your child into a gentle sleep.

These practices mirror the experience of Little Mouse in the picture book story. In a beautiful woodland full of flowers and trees, Little Mouse plays all day long. But, after one hot day, a storm gathers overhead, and she and her friends have to rush home to take shelter from the booming thunder, flashing lightning and pouring rain. When she tries to get to sleep that night, Big Mouse is on hand to soothe her worries, using guided breathing, gentle meditation and reflection on the good things that happened during the day.

Bedtime, Little Mouse is brought to life with sweet and gentle illustrations by Carmen Saldaña, illustrator of numerous picture book titles.
