Destroy This Book in the Name of Science: Einstein Edition

Mike Barfield

Keynote

Created by author, cartoonist and entertainer Mike Barfield, *Destroy This Book* is the ultimate activity-based book, perfect for curious children who are inspired by cool science.

Description

Created by author, cartoonist and entertainer Mike Barfield, *Destroy This Book* is the ultimate activity-based book, perfect for curious children who are inspired by cool science.

With fascinating information, colouring and doodling activities to complete, and a dozen press-out projects to create, there's hours of fun to be had cutting, tearing and pulling apart the pages (all in the name of science, of course).

Projects include The Hoop Glider, Einstein Nodder, Turtle Racer and much more.

Best of all, no expensive craft supplies are required.

Sales Points

- The ultimate activity book for intuitive children and science boffins
- Featuring a dozen press-out projects to build, create and destroy including The Hoop Glider, Turtle Racer and much more
- No expensive craft supplies required
- Created by writer, poet, performer and science-enthusiast, Mike Barfield
- Also includes plenty of cut-out designs, pages to colour, doodles to draw and fun facts to digest

Reviews

- 'wickedly fun...giving children the opportunity to discover through easy-to-access scientific exercises' - *Evening Standard*
- 'the perfect literary addition to the lab/bedroom of curious children' - *E&T*
- 'Genius! This book will really inspire children to delve into the world of science' - *Parents in Touch*

Author Biography

Mike Barfield is a writer, poet, performer, songwriter, ukulele player and cartoonist. He has written extensively for TV and radio — with credits as diverse as *The Dennis the Menace and Gnasher Show* and *Who Wants To Be A Millionaire?*. His cartoon drawings have been displayed in The Cartoon Museum, V & A Museum, Museum of London and beyond.

Mike's latest book, *Destroy This Book In The Name of Science!*, continues his tradition of creating fun non-fiction for younger readers. It is a unique children's science activity book where the reader is encouraged to doodle, cut and colour the pages, as well as make over a dozen amazing working models, including a balancing Isaac Newton, and nodding models of both Albert Einstein and Marie Curie! Every page, including the cover, is an interactive experience for the reader — as well as being huge fun!

When Mike isn't busy writing and drawing, he performs science-based shows and humour-filled workshops at schools, libraries and festivals across the country.

Mike has a first-class degree in botany and zoology from King's College, London.
