## Drawing Made Easy

**E. G. Lutz**

### Keynote

**A beautiful, practical and nostalgic step-by-step drawing book for budding artists and illustrators.**

### Description

**A beautiful, practical and nostalgic step-by-step drawing book for budding artists and illustrators.**

Although you may never have heard of him, E. G. Lutz is the author, animator and cartoonist who inspired a 19-year-old Walt Disney to start drawing and pursue a career in animation. His books have been credited with playing a crucial role in Disney's development as an animator.

Lutz's method of teaching illustration breaks down complex designs into simple shapes and easy-to-follow step-by-step instructions. Although simple enough for children to follow, this technique uses principles that can be seen in great works of art today.

With such timeless subjects as people, animals, flowers and charming antique trains and cars, you can progress from fairly simple subjects to more complicated designs.

Credited with having taught generations of children and adults how to draw, this beautifully packaged book is the perfect gift for anyone wanting to learn the basics and start drawing.

### Sales Points

- Written by E. G. Lutz, the artist credited with inspiring Walt Disney
- Originally published in 1935, this beautiful book remains hugely relevant and useful for artists today
- The principles of illustration are broken down into simple step-by-step instructions, suitable for any age to follow
- The follow-up to *What to Draw and How to Draw It*

### Author Biography

Although little is known about him, **E G Lutz's** book is credited with being the inspiration for Walt Disney's career in animation. A brilliant newspaper columnist, Lutz specialized in cartoons, drawing animals and designing optical toys for children to cut out and make.
