Buster Books

Explore the prehistoric world and bring the jungle to life with these collections of beautiful press-out models to create. Each simple design is reversible, with a fully coloured dinosaur or animal on one side. On the reverse, the same design is repeated in black line for children to colour. From a stomping Stegosaurus to a mighty lion, and a colourful giraffe to a terrific Triceratops, there are a whole host of characters and interesting facts to discover.

Jonathan is a wildlife and natural history illustrator creating artwork for a wide range of clients from children's non-fiction to zoos and aquariums.
