

Instructions

1. Pick an artwork that you would like to complete – you can take a sneak peek at previews of the completed pieces at the back of the book.
2. Look at the number on each white shape – this tells you the colour to use and matches the number on a coloured sheet of stickers at the back of the book.
3. Choose the correct sticker shape from the sticker page (the various shapes available are listed below). You can pull the sticker sheets out of the book so they are easier to use.

Square

Circle

Quadrant

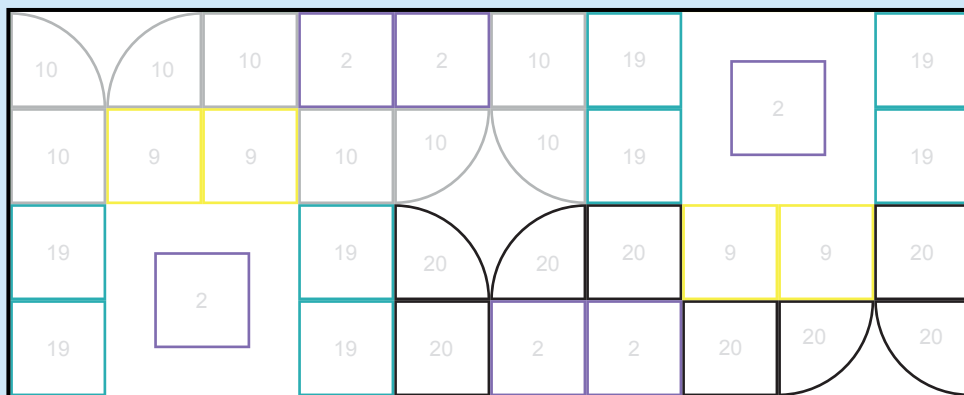

Right-angled triangle

Equilateral triangle

4. Stick the sticker over the white area. Fill in all of the white shapes to complete your artwork. Do not fill white areas that are not numbered.

Here's a simple puzzle for you to practise on:

Here's what your design should look like when complete:
