The Universe in Bite-sized Chunks

Colin Stuart

Keynote

The whole cosmos in your hands, *The Universe in Bite-sized Chunks* is your one-stop guide to everything you ever wanted to know about space and our place in it.

Description

The whole cosmos in your hands, *The Universe in Bite-sized Chunks* is your one-stop guide to everything you ever wanted to know about space and our place in it.

Does dark matter keep you up at night? Do alien planets intrigue you, parallel universes confuse you, and black holes fill you with dread? If yes, then this book is for you – all these things, and more, are clearly explained in everyday language for the non-astronomer.

This fascinating book will take you on an astral adventure, beginning with humanity's very first astronomical observations, and ending with the latest thinking on the most cutting-edge discoveries. Along the way, you'll learn about the Big Bang and the ultimate fate of the universe, Galileo and Newton, gravitational waves and shooting stars, the Aurora Borealis and the Apollo missions, quasars and dark energy.

With so many intriguing but often mind-boggling concepts to grasp, Colin Stuart uses all his knowledge and expertise to engage the reader and make the subject accessible, providing the very best start to your cosmic voyage of discovery.

Sales Points

- Fascinating overview of our universe and the discoveries astronomers have made over the centuries, written in clear, accessible language for the non-scientist
- Covers all the major milestones of scientific discovery since we first turned our faces towards the stars
- Colin Stuart lectures at the Royal Observatory in Greenwich, and is the author of *13 Journeys Through Space and Time*, also for Michael O'Mara, which has sold over 12,000 copies to date
- The Michael O'Mara Books 'Bite-sized Chunks' series has sold 657,000 copies worldwide in all formats to date
- **Comparative Titles:**
Astrophysics for People in a Hurry by Neil DeGrasse Tyson (WW Norton, 2017): 7,800 copies sold to date
The Universe in Your Hands by Cristophe Galfard (Pan, 2016)
Ask an Astronaut by Tim Peake (Century, 2017)

Author Biography

Colin Stuart is a space geek who talks to tens of thousands of people about the stars every year. A freelance science writer too, he has written for the *Guardian*, *Observer*, *New Scientist* and the European Space Agency amongst many others. He has been a runner-up in the European Astronomy Journalism Prize and is the author of several books, including *13 Journeys Through Space and Time*, *The Big Questions in Science* and *Why Space Matters to Me*.

A fellow of the Royal Astronomical Society, he's talked about the wonders of the universe on Sky News, BBC News and Radio 5Live and tweets as @skyponderer.
